1. plan, draft and write an effective academic essay based on a clear and precise understanding of the essay question
2. display a clear understanding of the concepts of audience and purpose and of a wide range of common academic conventions
3. employ written and spoken feedback to improve the quality of successive drafts
4. produce an appropriate response to the essay question using appropriate academic language and drawing effectively on academic sources (by paraphrasing and summarizing them effectively).
5. have a solid grasp of common grammatical and lexical features of academic writing
6. display an increased level of confidence in handling academic writing tasks, in preparation for their future degree course
7. correctly cite academic sources according to the Harvard referencing system and avoid plagiarism
8. demonstrate effective oral presentation skills

## **TEACHING METHODS**

---

The students will have access to a wide range of learning and teaching resources, both inside and outside the classroom. Students will work individually and in pairs/groups so as to cover all the skills needed for writing within an academic context. They will also receive two one-to-one 15-minute tutorials in both semesters, to assist them with their first and second essay-draft.

The employability skills that the course develops are mainly communication skills, having to do with fluent and accurate oral and written expression in English, as well as logical and critical thinking skills: the ability to produce an organized and well-structured text and to analyse texts critically. There is also an important focus on (library) research skills, in particular on teaching students how to research a topic and how to integrate bibliographical material into their essay by paraphrasing, summarizing, and citing sources correctly.
