MODULE **DESCRIPTOR**

MODULE TITLE	CONTEXTUAL STUDIES		
MODULE CODE	TE1000 (L4)	**CREDIT VALUE**	20 CREDITS /10 ECTS
CAMPUS	UCLAN CYPRUS		
SCHOOL	SCHOOL OF SCIENCE		

MODULE **AIMS**

This module aims:

- To familiarise students within the standards and principles of undergraduate study and professional practice
- To introduce concepts and terminology related to their subject discipline.
- To provide an opportunity for students to develop their theoretical knowledge, skills and understanding related to their subject discipline.

MODULE **CONTENT**

Material covered includes:

Good use of time management

The assessment of work in higher education

Introduction of key terminology for the subject discipline.

Identification of key skills and tools associated with their subject discipline.

Use of appropriate words and language.

Good health and safety working practices.

Introduce ethical and legal issues related to their subject discipline

INTENDED **LEARNING OUTCOMES**

On successful completion of this module a student will be able to:	
1.	Recognise self-development in higher study and beyond
2.	Identify skills and tools associated with their subject discipline
3.	Situate their subject discipline within a contemporary and historical context.
4.	Recognise their professional working practices in their subject discipline.

TEACHING **METHODS**

Teaching and learning will take the form of lectures and seminars. Learning will be supported by the use of demonstrations, practical activities as well as web-based resources. Students will study different 'themes' in sequence

These sessions will be timetable in varied locations to reflect the resource requirements of the different 'themes'. Students are required to attend all timetabled learning activities for this module.

Participation in seminars and workshops is important for both their learning experience and that of their classmates.

The assessment will test all the intended outcomes. There will be the opportunity to submit coursework throughout the year, with the final mark for the coursework being awarded at the end of the module.

ASSESSMENT **METHODS**

This module is assessed through coursework.
